**NOTICE OF ALLOWANCE**

1. This communication is in response to Application No. 10/065,762 filed on 15 November 2002. The response presented on 10 February 2010, which cancels claim 25, and presents arguments, is hereby acknowledged. Claims 1-13 and 21-24 are currently pending and have been examined.

***Claim Objections***

2. Applicant's amendments, in the response dated 10 February 2010, cancelling claim 25 is noted. All outstanding objections to the claims are hereby withdrawn.

***35 USC § 101***

Regarding claim 9, this claim is directed to a method for transmitting messages through a queue. The queue, having messages rows coupled between a write control unit and a read control unit, cannot be human. While one may initially argue that the queue could be a non-particular-machine entity, for instance a piece of paper, the claim requires that the queue components set/clear flags and progress pointers. Thus, the queue must be a particular machine, and therefore the method is tied to a particular machine. Further evidence supporting this conclusion is found within applicant's specification, which states the queue is implemented as a buffer device (Applicant's amended specification: [0003]-[0010]).

**35 USC § 103**

*Response to Arguments*

3. Applicant's arguments, filed in the response dated 10 February 2010, have been fully considered and are persuasive. The rejections of claims 1-13 and 21-24 under 35 USC 103(a) are hereby withdrawn.

***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:

Applicant's arguments in the response dated 10 February 2010 were persuasive.

The art of record fails to render obvious a flag set by a write unit when a free message row address is obtained, the flag being subsequently cleared by a read unit after reading the message row, and the flag not being cleared by the write unit prior to the clearing by the read unit.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to JEFFREY NICKERSON whose telephone number is (571)270-3631. The examiner can normally be reached on M-Th, 9:00am - 7:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Philip Lee can be reached on (571)272-3967. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
